

**CROPNOVA** is a unique organic product which plays an important role in plant growth promotion and development of immunity against various pests for the environment friendly approach to increase crop production and development in sustainable agriculture.

**CROPNOVA** is a proprietary organic product developed through microbial fermentation of specialized microbes. The microbial biomolecules produced have beneficial properties of direct promotion of plant growth and indirectly protecting the plants from various pest infestations, to improve crop yield and plant growth.

Use of **CROPNOVA** enhances production of various polysaccharides which help in stabilization and regulation of plant biomolecules. The innovative strategies of directing the product to alter the metabolism and flux in plant metabolic networks, stimulates synthesis of various precursors which bring in metabolic and physiological variations in plants to combat with many biotic and abiotic stress factors.

**CROPNOVA** has been shown to boost up the biochemical defense mechanism. Antikennals and exert host plant resistance against phytophagous pests.

Recommendation: **CROPNOVA** can be used on all vegetable & fruit crops.

It is recommended only for foliar applications and doesn't leave any residue on the crop.

Dosage : Dilute **CROPNOVA** in good quality of water @ 3-4 ml Per liter of water and stir well till it dissolves, company.

- SHAKE THE BOTTLE BEFORE USE.
  - Spray the solutions the same day of preparation and ensure that whole plant is covered on both sides of the leaves for excellent result.
  - It is recommended for spraying, early in the morning or evening for good effect.
  - Recommend Double dose for power sprayer usage.
  - **CROPNOVA**, though a natural product must be kept away from the reach of children and pets.
  - Store the product in a sealed and keep in a cool place.
- In case of contact with eyes – wash with plenty of water.

#### अधिपनोवा

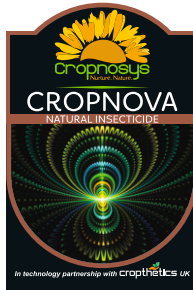

अधिपनोवा एक प्राकृतिक जैविक उत्पाद है जो पौधों को बीड़ों से बचाने की आवश्यकता नहीं बढ़ाने में बहुत प्रभावी सिद्ध है।

अधिपनोवा सभी प्रकार की सब्जियों एवं फलों के पौधों पर प्रयोग किया जा सकता है।

ब्राह्मण अधिपनोवा को साफ एवं अच्छे पानी में 3 से 4 मिली प्रति लीटर के हिसाब से मिलाये।

- कुपमा उपयोग से पहले बोतल को अच्छी तरह हिलाये।
- घोल बनाने वाले दिन ही इसका उपयोग करें। घोल का विह्वलन पतियों के दोनों तरफ करना चाहिए।
- अच्छे परिणाम के लिए इसका विह्वलन सुबह या शाम को ही करें।
- माघर को इस्तेमाल करने के लिए इसकी (अधिपनोवा की) मात्रा दुगुनी करें।
- अधिपनोवा को बरतों एवं वास्तु आनंदन से दूर रखें।
- इस उत्पाद की बन्द अवस्था में छाया में रखें।
- खड़े पतली से औख में पड़ जाय तो साफ पानी से औख को अच्छी तरह धोयें।

**Disclaimer:** The Purchase decision & use of this product for any purpose by the buyer is solely his/ her discretion & company is not responsible for any damages whatsoever. Company offers no warranty or liability for this product & no legal action can be initiated against the company.
